22 August 2022

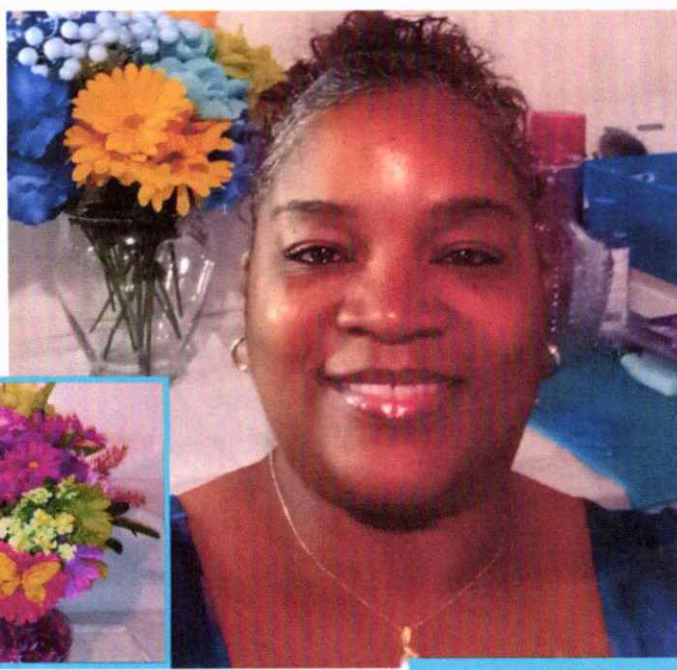

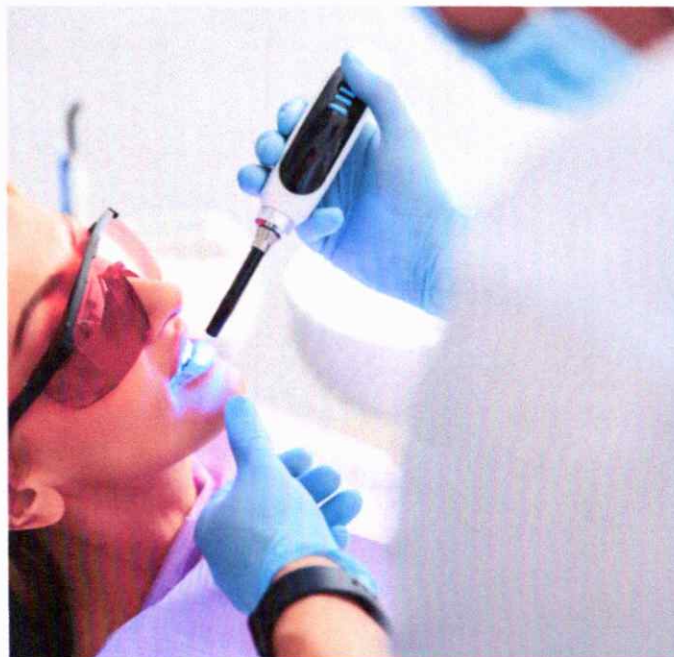

For the month of September CDG (The Campbell Dental Group) will be offering Pit & Fissure sealants \$20 off! Making each sealant just \$45. Take advantage of this great preventative procedure, great for adults and adolescents.

### *Why get sealants?*

The most important reason for getting sealants is to avoid tooth decay. Having sealants put on teeth before they decay will also save time and money in the long run by avoiding fillings, crowns, or caps used to fix decayed teeth.

### *Who should get sealants?*

Children and adults can get sealants on their permanent molars as soon as the teeth come in before decay attacks the teeth.

## Team Member Highlight

### *Iris Sheffield-Woods*

Iris is a certified dental assistant with expanded duties certification. She received her certification in Georgia 1992. Iris is married with children. When Iris is not working she enjoys being creative. Her passion is floral arrangements and serving others.

**“An ounce of prevention is worth a pound of cure”**

## Community Service

As our students start school the need for paper goods and cleaning supplies increase. At CDG (The Campbell Dental Group) we would like to donate paper goods and cleaning supplies to 3 local schools. We kindly ask our patients to participate by bringing in surplus printing paper, sanitizer, cleaning wipes, tissue boxes and like items for donation by September 22. We will be delivering supplies October 3rd, 2022.
